# Cyber Crime & Security

PRESENTED BY : CYBER SAFETY COMMITTEE  
OF SCHOOL

# What is Cyber Crime?

**Computer crime**, or **cybercrime**, is crime that involves a computer and a network. The computer may have been used in the commission of a crime, or it may be the target.

# What is the meaning of Cyber Security?

**Cyber security** is the body of technologies, processes and practices designed to protect networks, computers programs and data from attack, damage or unauthorized access.

OR

Cyber **Security** is the protection of information systems from theft or damage to the hardware, the software, and to the information on them.

# NEED FOR CYBER SECURITY

Cyber security is necessary since it helps in securing data from threats such as data theft or misuse, also safeguards your system from viruses.
