<b>Salient Points of Observation-</b>	The Hindi language learning class, despite starting on time, lacked proper planning and soft skills development, requiring improvement in planning, facilitation, and social-emotional quotient.	The class was punctual, positive, and participative, but could benefit from more engaging posters and role plays, English-based instruction, and a team-oriented learning culture.	The lesson on Circles was well-planned, effective, and partially met learning outcomes. However, suggestions include real-world connections and using simulations like GeoGebra for experiential learning.	The lesson introduced basic fraction types, using real-world connections, and was well-presented, but there's room for improvement in real-world connections and technology integration.
<b>Follow up action by the school-</b>	The teacher was advised to adhere with the suggestions given and improve lesson planning.	The teacher was advised to focus on her linguistic skills and if necessary, she should discuss with the Education Advisor for better prospects.	The teacher was advised to adhere with the suggestions given.	The teacher was advised to adhere with the suggestions given.

**Our teachers have adopted an innovative pedagogical approach to encourage students to be proactive in their research, study, and use multiple tactics to come up with creative ideas and strategies to reveal something new.**

A creative corner, a perfect art space for the pre-school was created to nurture their creativity and imagination.

# Wise Time Maths Kit Activity

An activity was conducted for the students of class IV using the Wise Time Maths Kit.

## Activities:

1. Fraction Wheel: Create a wall with different fractions.
2. Fraction Bar: Divide strips into fractions.
3. Fraction Match: Match equivalent fractions.

## Learning Outcomes:

1. Understand the concept of fractions as part of a whole.
2. Identify and write fractions (e.g.,  $\frac{1}{2}$ ,  $\frac{3}{4}$ ).
3. Compare fractions (e.g.,  $\frac{1}{2} = \frac{2}{4}$ ).
4. Recognize equivalent fractions.
5. Solve simple problems involving fractions.

These learning outcomes, activities, and resources will help students develop a solid understanding of fractions and prepare them for more advanced math concepts.

## SHIN Program

Shin program activities were conducted in our school for the students from classes I to V. Activity included, Moving the cube and Arranging different given shapes to overlap the give figure.

Parents' reviews regarding the SHIN Programme Activity Book are presented below:

The program has personally helped in my child's cognitive and overall development. She has started thinking logically behind any problem which she has to solve. This activity also helps in the mental development of a child.

## FEEDBACK ON ENGLISH ENHANCEMENT MODULE BY TEACHERS

The English Enhancement Module effectively aids Primary children in vocabulary learning through vocabulary words, Sense Board memory exercises, and interactive activities. Module-3's "Turncoat" Speaking activity encourages critical thinking and adaptability in Senior classes.

The English Enhancement Module is a comprehensive resource for middle school students, focusing on developing reading, writing, speaking, and listening skills. It has clear learning objectives, engaging activities, relevant and interesting topics, and assessment tools like quizzes, tests, and project-based evaluations.

Worksheets and PowerPoint modules enhance students' knowledge, observation, and logical thinking. They provide a holistic development approach, allowing them to use these tools in their daily lives for holistic growth.
